DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of 10/23/03 in Paper No. 8 is acknowledged. The traversal is on the ground(s) that it would not be of undue burden to examine both groups. This is not found persuasive because a divergent search would be necessary to examine both groups.

The requirement is still deemed proper and is therefore made FINAL.

Specification

Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

Currently, the abstract is in excess of 150 words. Correction is necessary.

Claim Objections

Claim 50 is objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim 50. See MPEP § 608.01(n). Accordingly, the claim 50 has not been further treated on the merits.

Claim Rejections - 35 USC § 102

Art Unit: 3738

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 6, 9 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Witkin (US 5035883). Witkin discloses a method (abstract and example 2) for treating cells affected by at least one oncogenic virus by providing an oxygen donor (abstract) and subjecting an area of the body tissue comprising the affected cells (example 2).

With regards to claims 2, 6 and 17, the vaginal tract is specified (example 2).

With regards to claim 3, the papilloma virus is specified (example 3).

With regards to claim 9, swabbing with a liquid is claimed (claim 2).

Allowable Subject Matter

Claims 4-5, 7-8, 10-16 and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas J Sweet whose telephone number is (703) 308-4018.

The examiner can normally be reached on 6:30 am - 5:00pm, M-Th.
